DETAILED ACTION

In response to the Applicant's Appeal Brief filed 01/25/2008, the finality of the rejection of the last Office action is withdrawn.

Claims Allowed

The following is an examiner's statement of reasons for allowance:

A process to prepare a heavy base oil and a light lubricating base oil with the specifications and steps (a) to (c) as claimed in claim 1, wherein the Fischer-Tropsch (FT) derived feedstock is separated into light and heavy fractions and wherein both fractions are separately dewaxed, is not taught or fairly suggested in the prior art.

Prior art teaches separation of FT derived feedstock into light and heavy fractions, and thereafter, dewaxing only the heavy fraction. Prior art also teaches that the entire stock can be dewaxed. Thus, one skilled in the art finds no motive for separation into two fractions and dewaxing both fractions separately.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
